CHROMESKULL: LAID TO REST 2 picks up three months after we last left ChromeSkull (Nick Principe) at the end of the original Laid to Rest. Tommy (Thomas Dekker), who's struggling to come to terms with his encounter with the masked killer, has now gone missing courtesy of the maniacal Preston (Brian Austin Green), a mysterious player in the sequel with a sinister connection to ChromeSkull. Meanwhile, our killer has set his sights on a new girl, Jess (Mimi

Michaels), and after the young girl disappears, Detective King (Owain Yeoman) must race against the clock to find her and Tommy before it’s too late and try to put an end to ChromeSkull’s deadly legacy.
