In a shooter market currently dominated by CALL OF DUTY and BATTLEFIELD, publisher and developer Ubisoft have managed to stand the test of time and maintain a solid fan base throughout the years. TOM CLANCY'S GHOST: RECON FUTURE SOLDIER continues the tradition on Playstationg 3, Xbox 360 and PC.

TOM CLANCY'S GHOST RECON: FUTURE SOLDIER throws you into the story of futuristic warfare with a whole new Ghost Unit codenamed Kozak, Ghost Lead, Pepper and 30K. After the former Ghost Unit is wiped out by a bomb, the members must venture forth to complete a special ops reconnaissance mission to find those responsible and prevent global warfare. In this futuristic setting, your Ghost Unit will deploy in a variety of locations around the globe including Nigeria, Russia and the Arctic Circle to perform stealth operations with tons of advanced weaponry and surveillance equipment to help them infiltrate enemy strongholds. While not an incredibly unique plot, the game's campaign manages to keep you addicted through the entirety of all 14 missions thanks to it mesmerizing gameplay and desire to undercover the mystery behind the attack

TOM CLANCY'S GHOST RECON: FUTURE SOLDIER is a third-person, cover based shooter primarily, only switching to first-person view upon aiming down the sights. Playing through the campaign will require you and your three teammates to work together to complete objectives and keep the game continuously moving forward. All has been improved considerably since the last GHOST RECON title; your teammates are amazingly responsive, and they actually perform well as a unit in assisting you throughout missions. You'll be dropped into missions equipped with optical camouflage technologies that will literally render you invisible to enemy soldiers. This is your primary means for progressing stealthily through missions, but you also have the option of deploying recon drones for additional air and ground surveillance. If you enjoy a little more of a challenge then you can simply try to gun your way through the game's campaign despite being overwhelmingly outnumbered.

## BioGamer Girl: "TOM CLANCY'S GHOST RECON: FUTURE SOLDIER"
