SILENT HILL is poised to return this Fall, in a big way. See the Comic-Con footage from SILENT HILL: REVELATION 3D, as well as all of the details on the SILENT HILL mazes at both Halloween Horror Nights locations below!

Midst the giants of Hall H on Saturday (PACIFIC RIM, GODZILLA, Superman), SILENT HILL: REVELATION 3D gave fans of the franchise a taste of what to expect this October 26 when we return to the haunted, and haunting, town. Of course, the film's nightmare nurses made an appearance.

Fans of the games and films won't just be entering Silent Hill by proxy anymore, either. This October, at the renowned Halloween Horror Nights (both Orlando and Hollywood), “guests will be tormented by horrifying creatures from an alternate dimension, including the iconic deformed nurses and the executioner.”

“Creating a realistic three-dimensional world based on the disturbing SILENT HILL video games and films elevates Halloween Horror Nights to the next generation of twisted entertainment. Its incredibly imaginative and highly unsettling characters and environments make it the ideal fit for our event where the property can continue its reign of terror and fully immerse guests in its psychological horror,” said John Murdy, Creative Director for Universal Studios Hollywood.
