Fango has a bunch of HELLFIRE CDs to give away, courtesy of Van Richter Records. HELLFIRE is the ultimate Halloween music collection, and includes exclusive and unreleased tracks by the finest Gothic, synth-pop, industrial and metal bands on the music scene today.

Testify has been called the German Ministry for over a decade, and this compilation includes the previously unreleased remix “Seed of Wrath” by Chicago industrial legends Die Warzau. The Fair Sex, themselves compared to Skinny Puppy for many years, bring you the scary track “Cold Contempt” with original HELLRAISER samples. EBM dance-floor kings Plastic Noise Experience contribute a cover of the classic Motorhead theme song from HELLRAISER III. Sielwolf delivers “The Gun’s Eye” for fans of HENRY: PORTRAIT OF A SERIAL KILLER. DHI from Toronto, who have been featured on MuchMusic and worked with cyberpunk author William Gibson, submit their brand of darkwave crossover with “New Vision.” Girls Under Glass, often compared to Sisters of Mercy, bring you the Gothic track “New World Order,” while their side project Trauma present a dark soundscape with “The Last Rose.” Finally, Underwater Pilots, considered the brightest new band in future pop and compared to VNV Nation and Covenant, contribute a cover of Ministry’s classic “Everyday is Halloween,” taking the seminal All Hallows’ favorite to a new level of artistic creativity.

HELLFIRE is available for *free* to the first 30 people who enter this contest. Enter by e-mailing rebekah@fangoria.com, and be sure to put “HELLFIRE” in the subject line. Please include the following:
