FANGORIA

FANGORIA #322 doesn't hit the shelves or arrive in your mailbox till next month, but we've got the first peek at the the full contents and the cover—which has something EVIL lurking on it.

We're all excited about the upcoming EVIL DEAD remake, since it's being godfathered by the original creators. We spent some exclusive time on set and came back with words from director Fede Alvarez and star Jane Levy, and composer Roque Baños talks about his EVIL score as well. We've also got retrospective interviews on Sam Raimi's ill-fated second feature CRIMEWAVE with producer/co-star Bruce Campbell, producer Rob Tapert and actor Brion James; a focus on the new wave of European horror, including chats with the creators of BERBERIAN SOUND STUDIO, TULPA, CHIMÈRES, MARIANNE, SIMON KILLER and ZOMBIE MASSACRE; a look at the Eli Roth-produced Netflix series HEMLOCK GROVE; a feature on the flesheating farce EDDIE THE SLEEPWALKING CANNIBAL; a look back at the history of the HELLBLAZER comics; an excerpt from Rob Zombie's novelization of THE LORDS OF SALEM; and lots more. Head down past the cover for the full details!
